📍 Nanded, Maharashtra, India.

## SUMMARY

Hey there, I'm Yash Lalpotu from Nanded. Currently am pursuing my B.Tech(Production Engineering) from Shri Guru Gobind Singhji Institute Of Engineering And Technology, Nanded. I love solving problems creatively. Hard-work, resilience, and consistency are some of my strong skills. My analytical skills help me see the world from a different angle. I love to figure out how things work, building them myself gives me immense joy.

## PROJECTS

### VaaxIN

📅 06/2021 📍 Nanded

🌐 <https://yash-vaccinefinder.netlify.app/>

This is a vaccine finder app where you can easily locate the vaccine available in your area.

You just need to have the PINCODE for the respective area/city.

- I have created this app in React.js. The api which is used is from official <https://apisetu.gov.in/>

### AccuWeather

📅 08/2021 📍 Nanded

🌐 <https://myaccuweather.herokuapp.com/>

This is a weather app in which you can easily find the weather condition in your city.

- I have created this app using express.js and handlerbars.
- The api is from official accuweather

### Wunderlist

📅 05/2021 📍 Nanded

🌐 <https://yash-wunderlist.netlify.app/>

This is a task management app where you can manage your daily workflows

- I have created this app in React.js and used Email.js library for email service.
